Subject: RE: Threatt Application, Docket No. 2014-81-S

David,

Sorry for the delay.

In reviewing the waiver request within the Application, ORS is in agreement that Threatt has supplied the information in its Application required by Commission Regulation 103-512.4.B.3.

However, the Application does not contain a copy of the DHEC construction permit for the majority of the sewer system which is required, pursuant to Commission Regulation 103-512.4.B.4. Although, a copy of the DHEC construction permit is contained in Exhibit E for the second phase (30 feet of gravity line, 30 feet of force main, and one 350 GPM pump station) of the sewer system, the Application does not contain a DHEC construction permit for the original phase of the sewer system. ORS is satisfied since the Application does contain the DHEC operating permits for both phases of the sewer system project.

Additionally, the operating permits issued by DHEC are included in the Application for the two (2) phases of construction for the sewer system. However, the Application does not contain the statement by a professional engineer as required by Commission Regulation 103-512.4.B.11 for the second phase. Reference is made in the operating permit issued by DHEC in Exhibit F that a Professional Engineer signed a letter of compliance for the construction of the second phase of the sewer system project. It is fair to assume that since the permit to operate was approved by DHEC in Exhibit F that the compliance letter by Mr. Freeland was satisfactory.

ORS has no issue if the Commission chooses to waive Regulations 103-512.4.B.4 and 103-512.4.B.11.

Please let me know if you have any questions or comments.

Thanks,
Courtney

Subject: Re: Docket No. 2014-81-S - Threatt Application

Mr. Butler,

Yes. I spoke with Ms. Edwards, and we are in concurrence regarding the waivers. I have been out of the office and I apologize about not getting back sooner.

Thanks,

Dan Trammel
